

THE CLIMATE REALITY PROJECT JAPAN

ACTION GROUPS: WHAT WE DO

Due to the size and urgency of the Climate Crisis, everyone from every part of our society needs to take action - collaboration is key in realizing this.

"Action Groups" is a thematic action program that provides opportunities for volunteers from different backgrounds to connect with each other in order to plan and conduct impactful collective climate actions. The groups are split into five key themes which are strategically important to accelerate climate actions in Japan.

CLIMATE EDUCATION GROUP

Disseminate and publicize key information on climate change causes, solutions, Japan's situation to increase public awareness to reinforce the urgency for action.

WHAT WE DO

- Create, update and disseminate presentation decks to accelerate climate change education within the network
- Support educational material development project
